Deadline for manuscript submissions:

31 December 2020

Message from the Guest Editors

European and Mediterranean rural areas have undergone significant changes in the last few decades, mainly due to two opposite phenomena: the abandonment of marginal rural areas and the intensification of the agricultural practices. Despite these changes, Europe and the Mediterranean basin still retain important traditional agricultural areas, that in the last years have become particularly important for the sustainable development of rural areas. At international level, the GIAHS programme promoted by FAO is specifically dedicated to agricultural heritage systems, with the aim of identifying agricultural systems of global importance, preserving their landscape, agro-biodiversity, traditional knowledge, applying the principles of dynamic conservation. The Special Issue aims to present different examples of agricultural heritage across Europe and Mediterranean countries, highlighting varieties and different forms of management, as well as their importance for local communities.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
